

YIHUA 937D Constant Temperature Digital Display Soldering Station

Features

- YIHUA-937D constant temperature digital display soldering station is rapid in heating and temperature compensation. The temperature can be precisely controlled, effectively avoiding the cold solder joints.
- The anti-static design puts an end to the damage to the delicate components.
- The soldering station has automatic failure detection function and alarm function.
- Manufactured with the new solid mold, it perfectly resists pressure and impact.

Technical Specifications

- Rated Voltage AC 220V±10% 50Hz
- Output Power 40W
- Working Environment 0 ~ 40°C relative humidity < 80%
- Storage Environment -20 ~ 80°C relative humidity < 80%
- Dimension 14.5*12*8CM

- Weight 1.79KG
- Working Voltage AC 26V±10% 50Hz
- Temperature Range 200°C ~ 480°C
- Temperature Stability ±10°C (Static)
- Heating Elements Common heater
- Tip Ground Impedance < 2Ω
- Tip of Ground Voltage < 2mV
-

Warranty: As per brand policy
