

DL-25

Wireless Electric Screwdriver with Lithium Battery

1. Equipped with a high-quality brushed motor, delivering powerful performance, excellent stability, and extended service life.
2. Features low vibration, low noise, and minimal electromagnetic interference, making it ideal for environmentally sensitive and dust-free work environments.
3. Designed with a next-generation lithium battery power system, overcoming the bulkiness and high power consumption of traditional models—lightweight, compact, and more convenient to use.
4. The outer shell is made from premium PC material and ergonomically designed for a comfortable grip. Its compact size, lightweight build, and impact resistance allow for prolonged use without fatigue, significantly improving productivity.
5. The internal gear mechanism is crafted from high-grade alloy steel, ensuring long-lasting durability and operational stability.

Torque diagram

Technical parameter

Aircraft type		
Input Voltage		DC 12V
Torque range	(Kgf.cm)	5-25
	(Lbf.in)	2.6-21.6
	(N.m)	0.29-2.45
Torque adjustment		Stepless
Torque adjustment mode		Back stop screw
Idle speed (R.P.M)		1000
No load current (A)		0.9A
Applicable starter		Φ5
Applicable screw diameter (mm)	Mechanical tooth	2.6-5.0
	Self-lacking tooth	2.6-4.5

Power controller

Technical parameter

Rated Power	60W
Output Voltage	DC 12V
Output Current	3A
